\* All seed is treated with Maxim XL + Apron XL + Dynasty (fungicides) package. Cruiser 250 (no rootworm control) is available for an additional fee. For more information on these treatments [www.syngentacropprotection.com](http://www.syngentacropprotection.com)

\* Discounts available based on quantity ordered.

\* Some of our customers have chosen to pre-order and pre-pay 50% for their 2009 seed needs. This gives them priority order fulfillment. If you wish to discuss your 2009 seed needs further, please contact us. (308) 496-3457 [chuckzangger@nctc.net](mailto:chuckzangger@nctc.net)

\* Don't forget to mark your calendars for our **2008 Field day August 28th** in North Loup, NE. We will have a social gathering the night before. Further details will be sent later.
